

Prezentare de caz

Pacientul C.V., M, 62 ani

Anamneza

Antecedente personale patologice

HTA controlata medicamentos cu

Nifedipin – blocant al canalelor de Ca

TA 140/90 mmHg

Motivul prezentarii: sangerari
gingivale, mobilitate dentara

DATE PERSONALE

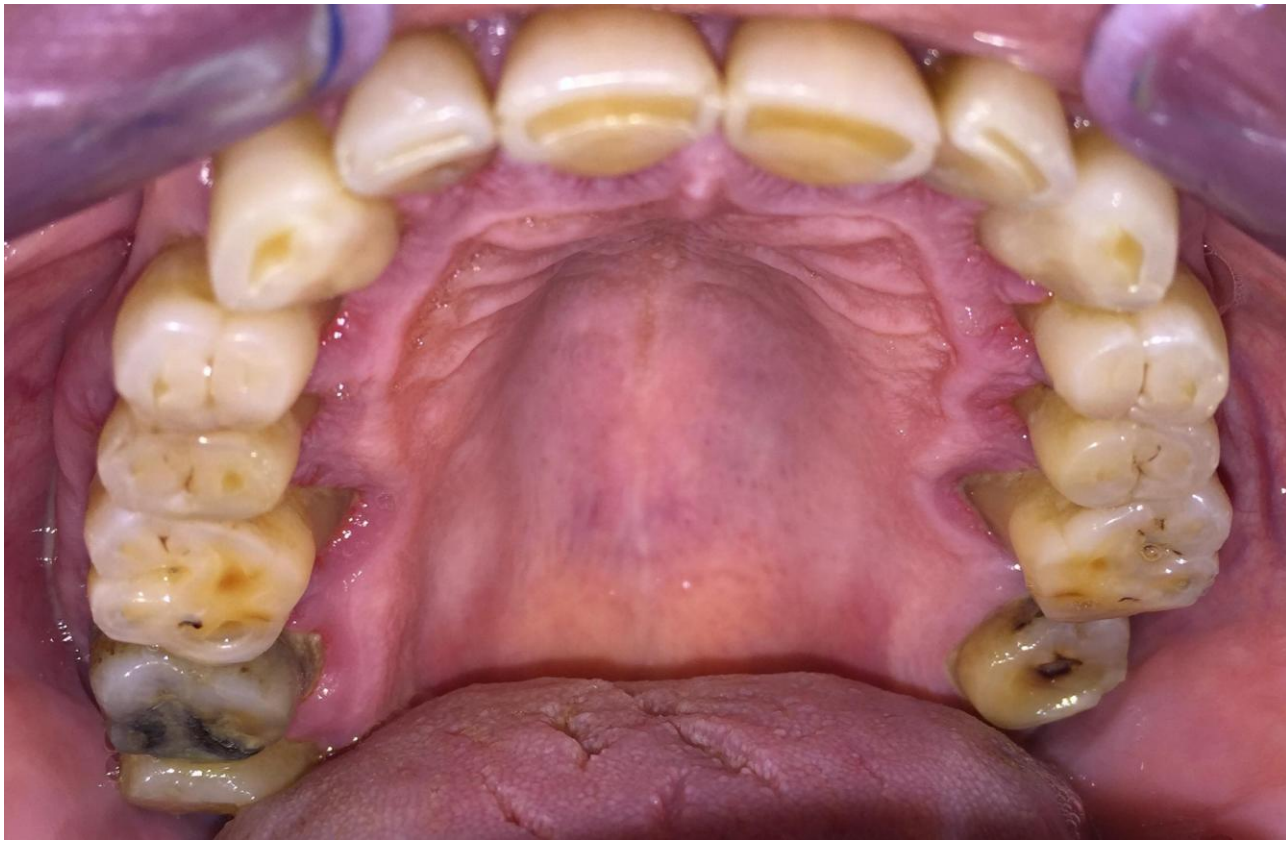

Nu
CN
Profesia: Telefon(fix/mobil): 4.729.77.63

Numele medicului de familie: R. Y. A.

	DA	NU
Ati fost in ultimii ani internat in spital sau ati urmat tratamente medicale?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Luati medicamente?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Daca da, care? NIFEDIPIN - blocant al canal. de Ca		
Ati suferit vreun accident sau o interventie chirurgicala?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Daca da, unde si cand?		
Sunteti alergic la un medicament sau substanta?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Daca da, la care?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Sunteti fumator?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Daca da, cate tigari fumati in medie pe zi?		
Ati avut vreodata:		
1. boli de inima sau hipertensiune arteriala? 140/90	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. diabet?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. boli infectioase (TBC, hepatita, SIDA, boli venerice)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4. reumatism?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5. boli respiratorii?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. tulburari de coagulare a sangelui (singerari prelungite)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7. boli ale rinichilor?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
8. alte boli?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
9. probleme psihice?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Pentru femei - sunteti insarcinata?	<input type="checkbox"/>	<input type="checkbox"/>
Daca da, in ce luna?

Diagnostic

Parodontita cronica generalizata severa asociata cu

largire gingivala cauzata de placa bacteriana, modificata de factor sistemic: medicatie – blocante ale canalelor de Ca si

46 - leziune endoparodontala fara afectarea integritatii radiculare, la pacient parodontopat, grad 3: punji parodontale profunde pe > 1 suprafata

Recesii RT2 15, 14, 13, 24, 25; RT3 18-16, 12, 21-24, 26, 37, 36, 33, 32, 41-46; cl 3 Miller

Furcatii grad 1: 26 MP, DP, grad 2: 17, 18, 26V; grad 3: 16, 37, 46

Parodontita generalizata, stadiu 3, grad C

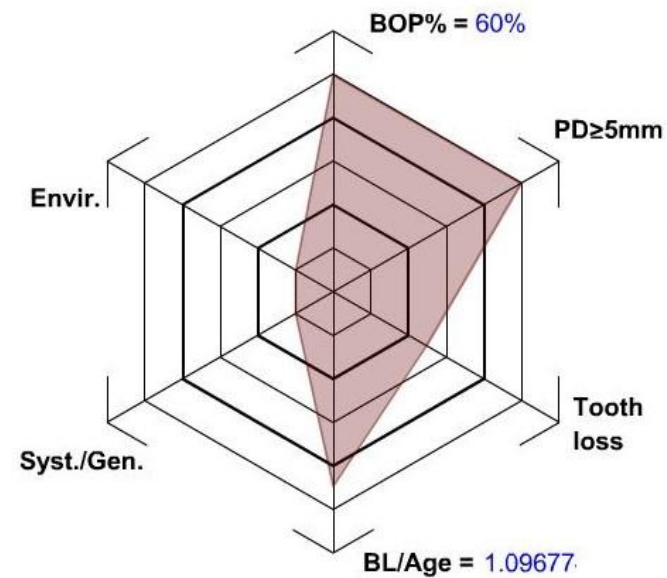

- Potential de pierdere a dintilor
- CAL loss > 6 mm
- Pierdere osoasa 1/3 apicala a dintelui
- Afectarea furcatiei gr 3
- Grad C % BL/age 1,09

Diagrama de risc

Periodontal Risk Assessment

Patient Last Name

Date

Polygon surface: 72.3131

Periodontal Risk: **high**

Suggested Recall interval: **3** Months

Age	<input type="text" value="62"/>
Number of teeth and implants	<input type="text" value="28"/> (1 - 32)
Number of sites per tooth / implant	<input type="radio"/> 2 <input type="radio"/> 4 <input checked="" type="radio"/> 6
Number of BOP-pos. sites	<input type="text" value="100"/> of 168
Number of sites with PPD \geq 5mm	<input type="text" value="56"/>
Number of missing teeth	<input type="text" value="5"/>
% Alveolar bone loss (estimated in % or 10% per 1mm)	<input type="text" value="68"/> %
Syst./Gen.	<input type="radio"/> Yes <input checked="" type="radio"/> No
Envir.	<input checked="" type="radio"/> Non smoker (NS) <input type="radio"/> Former smoker (FS) <input type="radio"/> Occasional smoker (OS) <input type="radio"/> Smoker (S) <input type="radio"/> Heavy smoker (HS)

Plan de tratament

- Prognostic individual al dintilor: nesiguri: 17; irrational to treat: 18, 37, 46
- **Plan de tratament**
- **Terapie initiala**
- Consult cardiologic pentru modificarea medicatiei
- Asanare - extractia dintilor irecuperabili 18, 37
- 46 – extractie;
- Inlocuirea obturatiei: 36
- 16 tratament endodontic
- 17 retratament endodontic sau extractive
- Igienizare profesionala + OHI
- Evaluare parodontala
- FMD
- Reevaluare 1 si 2

Terapie corectoare

- Tratament chirurgical de reducere a pungilor neregenerativ: lambou Widman modificat + chirurgie osoasa resectiva 16 M
- 16 amputatie radiculara
- 17 amputatie radiculara
- Recesii – nu se indica acoperirea
- Planificarea operatiilor pe cadrane
- restabilirea integritatii arcadelor: 46 – implant
- RPF – arcada maxilara

Diagrama de risc: risc crescut

Terapie de mentinere

- Recall = 3 luni
- Recare = se va axa pe OHI + igienizare + *pungi reziduale (> 4 mm)*
BOP+, se face chiuretajul pungilor reziduale.
- diagrama de risc la recall
- Parodontograma la 6 luni
- OPG 1/an
